

Unveiling Southern Africa

Namibia • Botswana • Zimbabwe

18 Days 15 Nights

27 May – 13 June 2027

12 pax only

WHY CHOOSE THIS JOURNEY?

More of Southern Africa, with the time to experience it

A journey that connects three remarkable landscapes

Many tours take you to Namibia's dunes and Victoria Falls. Ours follows the changing scenery between them: from Sossusvlei and the Atlantic coast through Etosha and Namibia's river regions, then into Botswana's Chobe National Park before reaching the falls.

Wildlife from the road and the river

Search for animals in Etosha and Mahango, enjoy a sunset cruise on the Kwando River, then experience Chobe by both river cruise and game drive. Every encounter is different, and sightings are always on nature's terms.

The experiences you came for are included

The Sandwich Harbour excursion, Chobe activities, national park entrances and a **15-minute helicopter flight over Victoria Falls** are part of the itinerary.

A small group of just 12 travellers

A smaller group means more personal attention, easier stops for photography and a more relaxed experience as we travel together across three countries.

The details are taken care of

Return economy flights from Kuala Lumpur, private transport, 15 nights in comfortable lodges and meals as listed in the itinerary are included. You can focus on the journey, knowing what has been arranged before you leave.

Pure Odyssey invites you to experience the full journey—from Namibia's red sands to the great rivers of Botswana and the thundering Victoria Falls.

- **More Space for the journey (Maximum 12 Travelers)** Our 16-seat safari vehicle carries a maximum of 12 guests, giving everyone more room to settle in during the long drives across Namibia, Botswana and Zimbabwe. A smaller group also makes it easier to share the experience with your fellow travellers and enjoy photography stops along the way. Seats will be rotated so everyone has opportunities to sit by a window during the journey.
- **Purpose-Built 4x4 Safari Vehicles** Covering 3,000 kilometers of diverse African terrain requires more than a standard commercial van. This expedition utilizes specialized 4x4 overland safari vehicles equipped with heavy-duty suspension and elevated seating. This ensures a highly comfortable ride over Namibia's corrugated gravel roads and provides a superior, high-angle vantage point for spotting predators in the tall grass of Etosha and Chobe.
- **Hand-Picked Wilderness Accommodations** The itinerary leverages highly reputable properties, including the renowned Gondwana Collection lodges. Rather than staying in sterile commercial hotels in distant towns, travelers sleep in comfortable, premium lodges situated directly on the banks of the Okavango River or at the edge of the Namib Desert, allowing the wildlife experience to continue even after the day's drive is done.
- **High-Value, Hassle-Free Inclusions** This package is designed as a turnkey adventure where the price point covers major logistical hurdles and add-ons. It fully includes top-tier experiences that are usually sold as expensive optional extras, such as a private game cruise on the Chobe River and a 15-minute scenic helicopter flight over Victoria Falls.
- **Dedicated Malaysian Tour Leader** Navigating three different African borders, remote desert environments, and specialized dietary or cultural expectations can be daunting. The inclusion of an experienced Malaysian tour leader working alongside local expert guides provides an essential bridge for communication, seamless on-the-ground troubleshooting, and ultimate peace of mind.
